In general there are three types of security financing (Equity Securities, Debt Securities and Asset-Backed Securities). Security Financing is also considers being a good financing source which involves the issuance of securities either in the stock market or in the capital market. In general, the companies financial decision subject to the composition of its Capital Structure. The Capital Structure is made up of two factors: debt & equity. The trade-off theory was originated out of debate over the Modigliani Miller theorem. The term trade-off theories was been used by different authors to state different group or similar related theories. The static trade-off theory confirms that the firm has perfect capital structure which they gain by trading off cost from the benefits of the use of equity and debt. The dynamic trade-off theory relates to the role of profit, role of retained earnings and path dependence. The concept of agency theory is emphasised more on the approach of concentrating on the nature of relationship existing between the company s shareholders (Principal) and their managers (Agents). Pecking order theory stressed that the company should first prefer to use internally generated income for the purpose of raising as it would restrict the company to...
